

*Earth Day  
Volunteer Vacation*

*April 24-25, 2009*

*Roll up your sleeves, grab your gloves and join us at the Kestner Homestead as we help to preserve the past in the Quinault Rainforest. Anton Kestner came to this emerald forest in 1889 and wandered along the lakeshore and interior looking for the perfect place to file his homestead claim under the Homestead Act of 1862. After building a cabin on the site his family arrived and they spent nearly 40 years on the homestead before it passed to another family and then Olympic National Park.*

*Join us Saturday
